

Lobna Abdelrhman

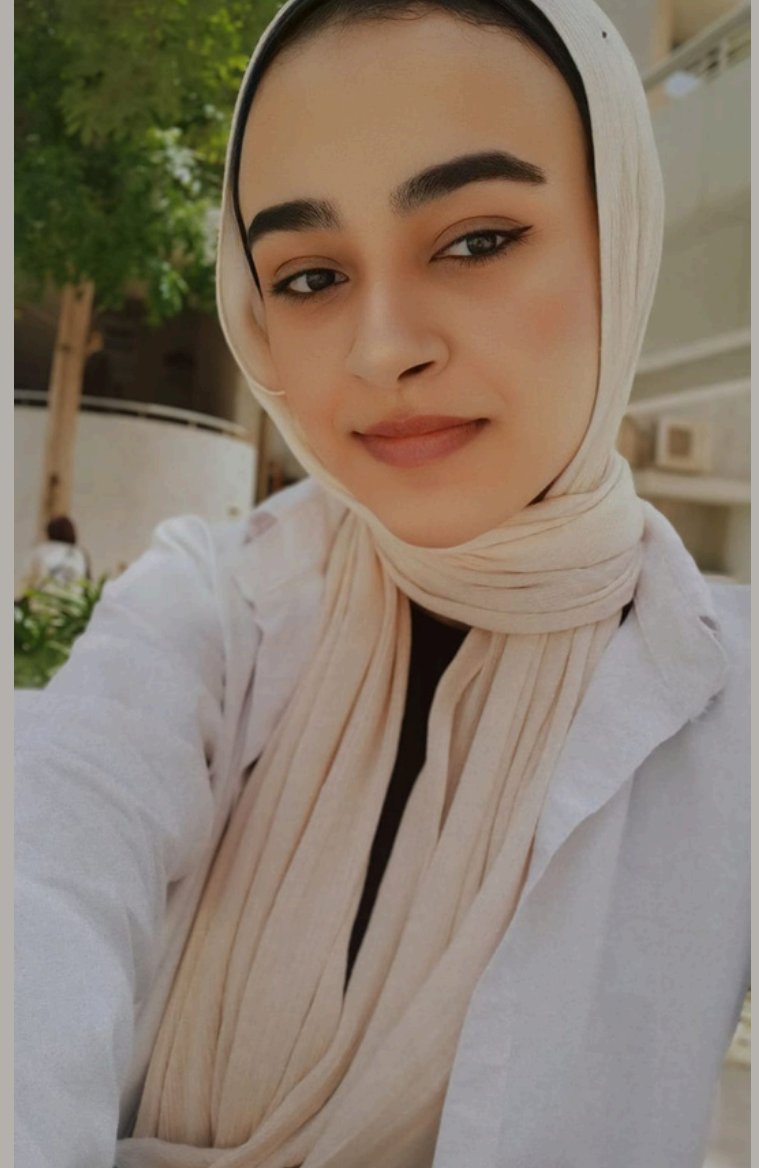

Full-Stack Developer

About Me

Hi, I'm Lobna Abdelrhman, a passionate Full Stack Developer specializing in building dynamic and scalable web applications. With expertise in Angular for front-end development and Node.js for back-end development, I create seamless user experiences and robust server-side solutions.

I thrive on transforming ideas into functional, responsive, and visually appealing digital products. My skill set includes working with modern web technologies like Express.js, MongoDB, TypeScript, and RESTful APIs, enabling me to deliver end-to-end solutions tailored to meet client needs. I'm dedicated to continuous learning, staying up-to-date with the latest trends in web development, and collaborating with teams to create innovative applications.

Feel free to check out my work, and let's build something amazing together!

My Skills
